PROFESSIONAL SUMMARY

I am a flexible and dedicated worker, who is not afraid to get my hands dirty, or work in outdoor environments. I have developed both my leadership skills and my ability to work well under pressure, during my time as an Assistant Language Teacher and as a Kitchen Manager. I have some welding and machining experience as well as some forklift experience. I am actively volunteering at a local stable and have a strong desire to work in the equestrian industry. I take pride in learning quickly on the job, adhering to safety procedures, and look forward to any opportunity to acquire new skills.
